5. Scheme status

5.1 What is the current status of the scheme?

Tick one box only and provide the relevant date.

Some schemes have more than one benefit structure, each of which may have differing statuses. In this situation, please state the overall scheme status in the following priority order:

1. Open
2. Closed
3. Paid up
4. Winding up
5. Wound up

For example, a scheme has a defined contribution and defined benefit element. The defined benefit element is 'Open', and the defined contribution element is 'Closed'. The status should therefore be provided as 'Open'.

6. Membership details

6.1 Membership: 1 April 2021 to 31 March 2022

Add the number of members* in the pension scheme for each of the categories given to each of the relevant boxes. These should be as at the scheme year-end between 1 April 2021 and 31 March 2022. Only count each member once, as defined in section 124 of the Pensions Act 1995. Priority for apportioning members is:

1. Active member
2. Deferred member**
3. Pensioner member

For example, if a member has both an active and a deferred member record, only count them once as an active member.

* Include annuitants (excluding dependants) where the annuity has been bought in the name of the trustees. Exclude any death benefit only members, dependants (spouses and children) and annuitants where the annuity has been bought in the name of the member.

** Pension credit members, where applicable, should be counted as deferred members.

*** Include any members who have defined contributions with defined benefit underpin, defined benefits with defined contribution underpin, defined contributions with guaranteed minimum pension, and equivalent pensions benefits.

6.2. Small scheme details

To be completed by schemes with 11 or fewer members only

Some small schemes are exempt from some of the requirements contained in pensions legislation. The exemptions depend on the membership of the scheme and the way in which decisions can be made by trustees. Please answer the statements below, which will assist in identifying whether the exemptions apply. Where it appears that exemptions apply, trustees should consider obtaining appropriate advice as to their remaining obligations under pensions legislation.

Please select the appropriate answer to the following statements:

Membership

This scheme has fewer than 12 members

Yes

No

Trusteeship

All members are appointed as trustees to the scheme

OR

All members are directors of the company which is the sole trustee of the scheme.

Yes

15 Schemes in surplus as at most recent Part 3 valuation date – financial

15.1 Is this scheme in surplus as at the most recent Part 3 valuation date?

Yes – please give details below

No – please go to question 16

Schemes are required to undertake actuarial valuations at least every 3 years under the requirements of Part 3 of the Pensions Act 2004. This section collates the financial assumptions that have been adopted to calculate the most recent Part 3 valuation. Financial assumptions that are covered include the discount rate adopted, inflation assumptions used and methodology of the discount rates.

The information should be accessible through the most recent actuarial valuation report (produced under Part 3 of the Pensions Act 2004) and/or the Statement of Funding Principles for the scheme.

16 Value at risk (VaR) calculation details

Some schemes will calculate and use Value at Risk (VaR) measures to review and monitor risks within their pension schemes. Where your scheme calculates VaR we are asking for information in relation to this. The questions below are gathering information about the VaR calculation including amount, period over which it is calculated, underlying calculation and percentile.

Typically VaR calculations are undertaken by the scheme actuary or investment consultant. Actuarial valuation reports, actuarial reports or investment advice and updates are typical sources for this information.

If you are not in a position to provide a VaR figure, TPR will assess the scheme's investment risk by reference to the allocation between different asset classes without any allowance for interest rate, inflation or other type of hedging that might be in place.

16.1 Does the scheme have a Value at Risk (VaR) calculation

Yes – please give details below

No – please go to question 17

The following input requires the calculation to be in £, however please note you can round your calculation to the nearest £100,000 for ease (eg £10,244,433 can be rounded to £10,200,000).

16.2 Provide a calculation in £ of the Value at Risk (VaR) at the most recent calculation date (where available) or your most recent calculation.

19 Asset breakdown

Please see the **asset breakdown help text** for detailed guidance on these questions.

19.1 Which tier does this scheme fall into based on the total liabilities recorded in the last s179 valuation?

The answer provided here will determine the level of information you will need to enter in the rest of this section.

Tier 1 (Simplified): less than £30 million

Tier 2 (Standard): £30 million to £1.5 billion

Tier 3 (Enhanced): £1.5 billion or more

19.2 Would you like to 'trade up' and provide more information about this scheme's asset breakdown?

This question does not apply to Tier 3 schemes.

Choose to trade up and provide more details about this scheme's asset breakdown if you have the information available.

20 Asset-backed contributions

Asset-backed contribution (ABC)

If your pension scheme has entered into an asset-backed contribution arrangement (ABC), The Pensions Regulator is asking for information relating to the structure, validation and terms of the ABC. An ABC is a contractual arrangement between the trustees and any one or more entities within the sponsoring employer's group. ABCs involve regular payments to the scheme for the duration of the arrangement. The payment stream derives from an underlying asset.

As set out in the published guidance on ABCs, the reasons we are asking for this information is because when we look at the scheme we will 'unpack' the effect of the ABC. In other words, when considering the valuation and the scheme's funding plans, we will look behind the net present value attributed to the scheme's interest in the ABC and will instead consider the aggregate funding stream provided under the recovery plan and the ABC. The information relating to the ABC sought by The Pensions Regulator will typically be found in the scheme's annual report and accounts, within advice obtained as part of the most recent actuarial valuation and/or within advice obtained when the ABC was implemented.

More information in relation to The Pensions Regulator's approach to ABCs is set out in **our guidance**.

20.1 Is there an asset-backed contribution arrangement in place which will provide payment(s) to the scheme?

Yes – please give details below

No – please go to question 21

20.2 ABC structure – provide details about the core structure of the ABC

22 Incentive exercises

Please provide us with details of any 'incentive exercises' the scheme has undertaken in the 12 month period up to the scheme year end date (this should be the same date you provide when confirming your most recent scheme membership figures).

An Incentive Exercise is an invitation or inducement provided to a pension scheme member to change the form of their accrued defined benefit rights in a UK registered pension scheme; one objective of which is to reduce risk or cost for the pension scheme or sponsor(s). There are broadly two types of Incentive Exercise: Transfer Exercises involving transfers out of a defined benefit scheme. These include Enhanced Transfer Value exercises and Total Pension Increase Exchange exercises (also known as Retirement Flexibility, Flexible Retirement Options); and Modification Exercises which include Pension Increase Exchange exercises. These are run as special exercises but other similar transfer or modification exercises may ordinarily be available to members of the scheme. See the help text for further information by clicking on the question mark icon above.

You should confirm your membership details within the Scheme details category before entering incentive exercise information. Changes to the effective date on the membership page after completing this question will result in you needing to re-confirm these details.

22.1 Has the scheme undertaken an 'incentive exercise' or made an invitation to members to transfer or modify their scheme benefits in the 12 month period up to the latest scheme year-end date?

Yes – please provide details below

No – please go to question 23

22.2 Please indicate which of the following incentive exercise options apply to your scheme during this 12 month period by providing the number of members made an offer and the number of members taking up the offer (one or more options may apply to your scheme and zero members taking up the offer is a valid entry). If the option does not apply, please leave the input fields blank.

25 Assessing credit risk for bonds

Further to an EU Directive on the use of credit ratings (Directive 2013/14/EU) we are required to assess the extent to which schemes use reference to credit ratings and to monitor the adequacy of schemes' credit assessment processes, in relation to their direct investments in bonds/debt instruments.

We are therefore seeking information in relation to what the person(s) (eg trustees, investment managers) who decide on the sale, retention or purchase of these debt instruments take into account when assessing the credit risk for these investments.

If you are unsure of how to answer this question, we would recommend that you consult the scheme's investment consultant for further guidance.

25.1 Does the scheme have direct investments in debt instruments that are not purchased through a pooled investment fund?

Yes – please go to question 25.2

No – please go to question 26

25.2 What factors do the person(s) (eg Trustees, Investment Managers) who decide on the sale, retention or purchase of these debt instruments take into account when assessing the likelihood that their issuer will not make the capital or interest payment due on them in full and on time?

Credit ratings

Review of credit agency reports

26 Trustee assessment of employer covenant grading

TPR expects trustees to review the strength of the employer covenant supporting a defined benefit scheme regularly. At a minimum, you should review the employer covenant grading at every scheme valuation.

For more information about assessing employer covenant, read the **employer covenant overview** (opens in new tab?) and **regulatory guidance pages** (opens in new tab?) on our website.

Note: We're aware that some scheme's advisers use a larger number of covenant grades (up to 10) in their assessment of the employer covenant. If this is the case for your scheme, please equate the rating provided to one of TPR's four grades.

26.1 Using TPR's four-point scale, select the most recent covenant grading

Schemes should try to apportion scheme members between participating employers using reasonable estimates where necessary. Having correctly apportioned as many as possible without incurring disproportionate cost, they should then divide the remaining members between the participating employers, in proportion to the number of members already allocated to each participating employer. For example, assuming a scheme has 120 members in total and only 60 of these can be correctly allocated. There are three participating employers with the following number of members:

- Employer A: 10 members

29 Multi-employer scheme structure

29.1 This scheme is structured on the following basis:

The scheme categories broadly reflect the categories set out in Paragraphs 74 and 75 of the Pension Protection Fund (Multi-employer Schemes) (Modification) Regulations 2005 (the 'Regulations') or Regulations 74 and 75 of the Pension Protection Fund (Multi-employer Schemes) (Modification) Regulations (Northern Ireland) 2005.

Tick only one description that applies. Where the rules provide for an option to segregate in some circumstances and a requirement to segregate in other circumstances, you should select **A**.

Where the rules provide for an employer in a multi-employer scheme to have a requirement or a discretion to segregate on the cessation of participation of an employer you should select **A** or **B** as appropriate.

Where you are a single employer scheme you should complete this question to reflect what the provisions of the scheme rules state in circumstances where the scheme has more than one employer. If your scheme rules do not make any provision for the scheme to be a multi-employer scheme you should select **C**.

A multi-employer scheme is one which has more than one employer which employs members of the scheme where a company has ceased to employ members of the scheme, it will remain an employer unless one of the conditions **A** to **D** of the Pension Protection Fund (multi-employer schemes) (modification) Regulations 2005 has been met.

- A. A requirement to segregate on cessation of participation of an employer
- B. Discretion to segregate on cessation of participation of an employer
- C. No requirement or discretion to segregate on cessation of participation of an employer (last man standing)
- D. This is a single employer scheme

- 29.2 Is this scheme established as a centralised scheme for non associated employers?** Yes No

Treatment as a centralised scheme for non-associated employers is at the discretion of the Board of the Pension Protection Fund based on evidence supplied by the scheme and/or information otherwise available to the Board. The Board may distinguish between sections of schemes and the treatment will not apply to sections where the employers are associated (including through a permanent community of interest). Evidence to be supplied could include, for example, relevant parts of the Trust Deed and Rules, scheme booklets, and any booklets for employers. The Board reserves the right to contact you to request further information in this respect.

- 29.3 If the scheme is centralised for non-associated employers, does the scheme contain only lump sum benefits, none of which are provided by contracted out monies?** Yes No
